

RESOURCES

Health Equity

Health equity means making sure everyone has a fair chance to be healthy, no matter who they are or where they come from.

Importance

Health equity is important because it makes sure everyone has the same chance to be healthy, happy and safe.

By focusing on health equity, we can make sure that everyone, no matter who they are or where they come from, has the opportunity to live a healthy life, doing all the things they love!

Some challenges like not having good schools or doctors nearby, can impact someone's health and wellbeing. Health equity works to fix these problems so that everyone can have a healthy life. To learn more go to, hcpf.colorado.gov/health-equity.

If you need help with the information in this document, including written/ oral translation; or in a different format like large print or as an audio file, we can help you at no cost. Call NHP at 800-541-6870 or State Relay 711 for callers with speech or hearing disabilities.

NHPs Commitment

Expanding access

Although healthcare services are not available in every community, mobile health units and/ or telehealth services are available, reaching more patients.

Preventative care

Regular check-ups, vaccinations and dental visits are highly encouraged and covered. NHP has an EPSDT program that covers these services for all children and those who are 20 years and younger.

Furthering accessibility

Translation services are available for NHP materials.

Transportation is available to members for appointments; contact us to set up.

Care coordination

See below for more information.

CARE COORDINATION

Care coordination is free and can be used to help make appointments, get medications filled or set up transportation for your outpatient appointments. Call 888-502-4190 to connect with a care coordinator.
