JOIN OUR NHP

HEALTH EQUITY COMMITTEE MEETING

About

The **NHP Health Equity Committee** creates space for **community-informed collaboration** because we believe that equity is strongest when it is shaped by the communities it serves. By bringing together partners, providers, and community voices, we work to **reduce barriers** and **improve access to care** across our region. Your voice helps ensure our strategies reflect the lived experiences and priorities of the communities we serve.

This is a space to,

- Share lived experience and community insight
- Learn and shape regional priorities
- Contribute to meaningful, actionable equity work
